SAFETY AND CIVILITY IN SCHOOLS

VISION

Students and staff learn and work in schools that are free from violence, intimidation, threats, harassment and fear. Because of wise, consistent enforcement of the rules and ethical decision making by both youth and adults, the school environment is attractive to students and creates the most favorable conditions in which to learn.

STRUCTURE

1. Building Level: Creating An Orderly Environment for Learning

Each school community is unique to the adults and students who work and study in it. Therefore, each school shall develop a plan to promote safety and civility for all. The plan shall:

1. Include the assessment of all aspects of the school facility, the daily schedule and the program of instruction and activities which identifies conditions that may pose a threat to the safety of staff, students and guests on campus;
2. Respond to the opinions and concerns of students, parents, staff and the community in identifying goals and priorities for action;
3. Include both the district-level and consistent building rules, plus procedures and systems to be used to assure safe behavior at all times and the efforts to be made to promote ethical decision making by youth and adults; and
4. Be approved by the superintendent, and reviewed by the building administrator annually.

2. District Level: Providing Leadership and Support for Orderly Schools

Each school’s capacity to implement its plan depends upon the district for leadership and support. The superintendent shall review and approve the schools’ plans and shall develop a long range plan for the district to support those plans. The district plan shall give consideration to:

1. Identification of the financial and human resources needed to support the school plans;
2. Conducting an audit of the district’s needs and accomplishments for review by the district’s School Safety Committee composed of parents, students, staff and members of the community;
3. Establishing regular communications and cooperative agreements with law enforcement organizations, social service agencies, and other groups in the community for the purpose of developing the community-wide capacity to support and reinforce the schools’ plans for safety and ethical decision making;
4. Assisting each school regularly to survey student, parent, and others’ opinions both to help develop safety and civility plans and to measure progress; and
5. Providing curricular and instructional support to the schools, enabling them to incorporate concerns for ethical decision making into the regular learning program.

The superintendent shall report to the Board annually regarding progress on matters of safety and civility in each school and throughout the district.

**ACCOUNTABILITY (MONITORING FOR RESULTS)**

An information system shall be developed to enable each school and the district to assess progress toward their safety and civility goals. Data regarding incidents which significantly impair the safe environment of schools and how those incidents were resolved shall be kept. Surveys of student, staff, parent and community opinion shall be conducted regularly both to measure progress toward goals and to review and adjust plans and actions that promote safety and civility.

**COMMUNITY ADVOCACY**

A district Safety/Security Committee shall be formed to assist the district in assessing its needs and making recommendations regarding plans and actions to promote safety and civility. The Committee shall include staff, parents and law enforcement officers, with particular information or experience to contribute to the work of the Committee.

Schools shall involve students, staff and parents in the development of their plans to promote safety and civility. Polling, community meetings and participation in the meetings of other organizations shall be used to understand the public’s concerns and expectations and to explain the work of the district and schools to enhance safety and civility.
